## 2 How to download the toolkits needed for TELE4651's Lab?

The image shows the NI-USRP download page. At the top, there is a large downward arrow icon. Below it, the text "NI-USRP" is displayed. A description states: "NI-USRP provides support for customers using NI universal software radio peripheral (USRP) transceivers and LabVIEW reconfigurable I/O (RIO) USRP devices." A link "+ Read More" is provided. A note with an information icon says: "Note: Install programming environments such as NI LabVIEW or Microsoft Visual Studio® before installing this product."

### **3 Why my program cannot run on computers in the lab?**

Please remember you need to run your programs on computers in the lab, which use LabVIEW 2012. In this way, always save your file as LabVIEW 2012 version when programming on your own computer.
